

**Project 12: Yellow River Scenic Trail**

**Estimated Cost: \$5,060,000**

**Scheduled Year: TBD**

Located in the southern portion of Gwinnett County, the proposed multi-use trail facility will compliment a trail system that has been identified in the Gwinnett County Open Space and Greenways Master Plan. The "Yellow River Trail Route" within Gwinnett County's Master plan will connect the Yellow River Regional Park to the Collins Hill Community Park. The proposed "Yellow River Scenic Trail" (YRST) provides additional opportunities for access points and trailheads. Additionally, the YRST links two County properties – a former Department of Public Utilities site north of US 78 with the recently acquired Vecoma Green Space property south of US 78. Corridor length is approximately 2.2 miles.
